

Special Training Announcement by Simon Yu, MD for Medical & Osteopathic Physicians & Dentists

Acupuncture Meridian Assessment (AMA) Training: Detecting Allergy-Immunology, Dental, Fungal, Heavy Metals & Parasite Problems

**April 25-28, 2019 and August 22-25, 2019
St. Louis, MO**

Do you have chronically ill patients that simply aren't healing no matter what you do? Or, do they appear to be improving but don't really get well? What is missing?

Over the last decades of my medical practice, I have developed the specialized use of a diagnostic tool that can assist doctors and dentists in detecting the root causes of illness when conventional medicine fails. I call it **Acupuncture Meridian Assessment (AMA)**.

It has led to rather unique accidental discoveries of parasites, fungi and molds, heavy metals, and dental-related medical problems, among others, that are often overlooked by conventional and alternative medical doctors. However, when these are addressed, conditions that are difficult to heal often get resolved.

This Special Training is designed for medical and dental professionals to help you quickly obtain information from patients through the use of Acupuncture Meridian Assessment. My AMA method is an updated, digitized, simplified, and modified version of EAV (Electro-Acupuncture according to Dr. Voll), and should not be confused with classical German EAV or Electrodermal Screening (EDS).

My primary focus is to teach practitioners how to check 40 essential acupuncture points to look for patterns which may be an indication of parasite, fungal, dental or other problems. The training includes many clinical case histories with diagnoses, treatments and results that can occur when prior numerous doctors and specialists did not succeed.

As practitioners, we cannot make a final diagnosis based on Acupuncture Meridian Assessment alone, but it can be a valuable tool to assist your clinical decision making. It offers a quick insight – Pattern Recognition – into initiating treatment and monitoring the progression of healing. AMA can be applied in conjunction with standard medical/dental evaluations.

The class consists of lectures and lots of hands-on boot camp drills for three and a half days, Thursday afternoon thru Sunday 1 pm, in St. Louis, MO. The classes are small, somewhat experimental, and spontaneous. There will be additional assistant instructors. The attendees, on a volunteer basis, will also be evaluated by me using AMA during the training.

My objective is to teach you the basics of how to uncover "hidden invaders" such as parasites and dental-related medical problems. Once you have this basis, you will be able to use AMA for understanding allergies and other hidden medical problems, such as fungi/mold, heavy metals, and more. We will touch on these other areas as well.

This training is specifically geared toward and limited to ***doctors, dentists, and other health professionals who are licensed to prescribe medicines*** in their states.

Equipment: If you have your own ohmmeter or old EAV device, you may bring it. There will be representatives for EAV/AMA equipment, including Kindling of Germany.

Date: Two sessions will be offered in 2019: April 25-28 and August 22-25. Choose the date best for you. The training is Thursday 1:30 pm – 8:30 pm, Friday and Saturday 8:30 am – 8:30 pm, and Sunday 8:30 am - 1:00 pm.

Location: Prevention and Healing Clinic at 10908 Schuetz Road, St. Louis, MO 63146
